highest living comfort • ultimately economic solution

Variomax

Our innovative bed lift systems **Variomax** and **Variolux** takes your own bed to an entirely new dimension. Versatile functionality provides maximum living comfort and great facilitation in numerous situations of your daily life. Benefit from our **highly economic solution** and combine your existing bed frames with these systems. Besides the **motorized height adjustment**, Variomax comes with the additional **get-up support in the form of an inclination function for the lying surface**.

Variomax

- Enhanced comfort owing to electric-motorized height adjustment of the lying surface from 40cm up to 80cm
- Get out of bed with more ease using the electric-motorized lift function of the lying surface along the longitudinal axis
- Highly economic solution due to optional use of your own bed frame
- Also combinable with any other electric-motorized bed frames available on the market
- Variably adjustable for bed widths of 80cm, 90cm, and 100cm
- easy changeable mattress tick

Highest position

Lowest position

highest living comfort • ultimately economic solution

Variolux

Our lift system **Variolux** is the luxury version of this product line. Based on the work principle of Variomax, this model provides the additional feature of an optional **Feet-down-position-adjustment**. This seating position allows for a new set of mobility options when it comes to participating in social life, such as receiving guests. But also having meals or watching T.V. in a relaxed manner becomes way easier.

Variolux

- Enhanced comfort owing to electric-motorized height adjustment of the lying surface from 40cm – 80cm
- Get out of bed with more ease using the electric-motorized lift function of the lying surface along the longitudinal axis
- Additional comfort owing to feet-down-position, which allows for a better seating position (eating, T.V and having guests)
- Highly economic solution due to optional use of your own bed frame
- Also combinable with any other electric-motorized bed frames available on the market
- Variably adjustable for bed width of 80cm, 90cm, and 100cm
- Easy changeable mattress tick
